## SOMETHING TO THINK ABOUT

### 7 reasons the world will end in 2012

Scientific experts from around the world are genuinely predicting that two years from now, all life on Earth could well finish.

Some are saying it'll be humans that set it off. Others believe that a natural phenomenon will be the cause. And the religious folks are saying it'll be God himself who presses the stop button...

#### 1. Mayan Calendar

The first mob to predict 2012 as the end of the world were the Mayans, a bloodthirsty race that were good at two things:

Building highly accurate astrological equipment out of stone and  
Sacrificing Virgins.

Thousands of years ago they managed to calculate the length of the lunar moon as 329.53020 days, only 34 seconds out.

The Mayan calendar predicts that the Earth will end on December 21, 2012. Given that they were pretty close to the mark with the lunar cycle, it's likely they've got the end of the world right as well.

## **2. Sun Storms**

Solar experts from around the world monitoring the sun have made a startling discovery: our sun is in a bit of strife.

The energy output of the sun is, like most things in nature, cyclic, and it's supposed to be in the middle of a period of relative stability.

However, recent solar storms have been bombarding the Earth with so much radiation energy, it's been knocking out power grids and destroying satellites. This activity is predicted to get worse, and calculations suggest it'll reach its deadly peak sometime in 2012

### **3. The Atom Smasher**

Scientists in Europe have been building the world's largest particle accelerator. Basically its a 27km tunnel designed to smash atoms together to find out what makes the Universe tick. However, the mega-gadget has caused serious concern, with some scientists suggesting that it's properly even a bad idea to turn it on in the first place. They're predicting all manner of deadly results, including mini black holes. So when this machine is fired up for its first serious experiment in 2012, the world could be crushed into a super-dense blob the size of a basketball.

### **4. The Bible says...**

If having scientists warning us about the end of the world isn't bad enough, religious folks are getting in on the act as well.

Interpretations of the Christian Bible reveal that the date for Armageddon, the final battle between Good and Evil, has been set down for 2012.

The I Ching, also known as the Chinese book of Changes, says the same thing, as do various sections of the Hindu teachings.

## 5. Super Volcano

Yellowstone National Park in the United States is famous for its thermal springs and Old Faithful geyser.

the reason for this is simple - it's sitting on top of the world's biggest volcano, and geological experts are

beginning to get nervous sweats. The Yellowstone volcano has a pattern of erupting every 650,000 years or so,

and we're many years overdue for an explosion that will fill the atmosphere with ash, blocking the sun and plunging

the Earth into a frozen winter that could last up to

15,000 years. The pressure under the Yellowstone is building steadily, and geologists have set 2012 as a likely date for the big bang.

## **6. The Physicists**

This one's case of bog-simple maths mathematics. Physicists at Berkley Uni have been crunching the numbers. And they've determined that the Earth is well overdue for a major catastrophic event. Even worse, they're claiming their calculations prove, that we're all going to die, very soon - while also saying their prediction comes with a certainty of 99 percent- and 2012 just happens to be the best guess as to when it occurs.

## **7. Slip-Slop-Slap-BANG!**

We all know the Earth is surrounded by a magnetic field that shields us from most of the sun's radiation. What you might not know is that the magnetic poles we call north and south have a nasty habit of swapping places every 750,000 years or so - and right now we're about 30,000 years overdue. Scientists have noted that the poles are drifting apart roughly 20-30kms each year, much faster than ever before, which points to a pole-shift being right around the corner. While the pole shift is underway, the magnetic field is disrupted and will eventually disappear, sometimes for up to 100 years. The result is enough UV outdoors to crisp your skin in seconds, killing everything it touches

**Something Will Happen at The end of**

2012

**BUT it is not the end of the world**

For one thing the bible says the world will never end.

Isaiah 45:17 But Israel shall be saved in the LORD with an everlasting salvation: ye shall not be ashamed nor confounded world without end.

Ephesians 3:21\* Unto him be glory in the church by Christ Jesus throughout all ages, world without end. Amen.

Matthew 24:32 Now learn a parable of the fig tree; When his branch is yet tender, and putteth forth leaves, ye know that summer is nigh:

In 1948 the Fig Tree ( Israel ) became a nation after 2300 years.

Matthew 24:33 So likewise ye, when ye shall see all these things, know that it is near, even at the doors.

Jerusalem is referred to as the fig on the fig tree, it is also referred to as the the tender leaf.

In 1967 ( six day war ) Jerusalem once more was under Israeli rule.

Matthew 24:34 Verily I say unto you, This generation shall not pass, till all these things be fulfilled.

Now a generation is anywhere from 40 years (as in Moses days) and is come and gone since 1967 (40 years from 1967 =

2007)

Or our life span (3 score and 10) or 70 years (70 years from 1967 = 2037 - doubtful)

Or if you average out the begat generations in the bible, they work out to 53+ years. (53+ years from 1967 = 2020)

Now back up seven years to the time of the rapture which is the beginning of 2013, this coincides with the predictions of the Mayon people

God gave John Paul Jackson (a man of God from the USA) a vision in 2008 of things that are going to take place in the next 10 years = 2018+ (several have already come to pass)

So you see the end of 2012 could possibly be the rapture which would be a drastic and traumatic experience for those left behind.

God does say that no man knoweth the hour BUT he commands us to no the season.

Matthew 24:33-37 So likewise ye, when ye shall see all these things, know that it is near, even at the doors.

34\* Verily I say unto you, This generation shall not pass, till all these things be fulfilled.

35 Heaven and earth shall pass away, but my words shall not pass away.

36\* But of that day and hour knoweth no man, (But we are to know the season in other words a very close proximety) no, not the angels of heaven, but my Father only.

37\* But as the days of Noe were, so shall also the coming of the Son of man be. (Noe preached for 120 years

and the people could see the ark was just about finished  
**BUT** they didn't believe in rain. **JUST LIKE THE  
PEOPLE TODAY, THEY DO NOT BELIEVE IN  
THE RAPTURE.)**

**THE RAPTURE OCCURS SEVEN YEARS BEFORE  
CHRIST RETURNS AND SETS UP THE 1000 YEAR  
REIGN.**

Something to **THINK** about but **Mat 24:33** **Verily I say**  
**unto you, This generation shall not pass, till all these**  
**things be fulfilled.**  
Bro Ken
