

## #93 How to pray

This was a note sent to a friend that was under conviction for salvation

Someone said you were a little down, I have to apologies as I feel it has been partially my fault. I have been praying for you and asking God to reveal himself and his love for and to you.

When the Lord is trying to get our attention and we don't know or perhaps understand, life can become pretty hectic or uncomfortable. The first thing we should realize is that Jesus came not only to pay the price once and for all for our sins, BUT to reconcile us to the Father so that we can have the same relationship with him that Adam & Eve had, before they sinned.

We have been taught or assumed that God is out there someplace and is only available to the religious, NOT TRUE.

God is a personal God and he desires to talk and share with us.

Unfortunately, we think that in order to talk with God (Jesus) we have to recite things in a certain way. NOT TRUE.

We talk to God the same way you and I talk, whatever is on our mind or heart, WE SAY If you want to know how to do something and you know I have done it, you ask me - not talk about the weather. It ain't no difference with the Lord.

The one thing that bothers some people at first, is talking out loud to someone you don't see with the natural eye. Many people have testified that when they first started praying, some just said "Jesus Help", others - "Jesus if you are real show me", and others said "Jesus come into my life and lead me". You see, whatever they said was sincere and real and Jesus will not laugh at us nor turn a deaf ear.

Calling on Jesus is not a get out of jail free card, or a cure all for life's trials, BUT one thing you do get is inner peace in all things. This is one of his promises to his children. John 14:27\_ **Peace I leave with you, my peace I give unto you: not as the world giveth, give I unto you. Let not your heart be troubled, neither let it be afraid.**

I want to help you and this isn't what some would call help, BUT IT IS TRUE AND IT WORKS.

Bro Ken
