

This is Dec 2013

Five years ago this request came in for Sherry, we sent out a praise report in March 2009. I talked to Sherry's mom in Oct/13 and she is still cancer FREE and enjoying a health life.

=====

In October 2008 we had this request --

We just had a prayer request come in for Sherry, a 54 year old women who just had a total hysterectomy and they found and removed a tumor that they found was a fast type of cancer. Her mother Lou Henne is a Christian and believes in the power of prayer. God is able and will heal her as we unite in prayer and ask him. **1John 5:15** And if we know that he hear us, **whatsoever we ask, we know that we have the petitions that we desired of him.**

=====

This praise report was sent March 2009

We talked to Sherry's mom tonight and after she was put on the prayer list, they did some further tests to determine the correct dosage of medicine and the fast acting cancer that was there, was no longer there. They put her on chemo anyway and Sherry is feeling great, She acknowledges that it is through prayer that God has intervened.

Praise God

Bro Ken
