Bro. Ken,

kindly pray for the nation of Philippines. There is a coming Super typhoon within 20 hours and we really need an intense prayer to drive out that typhoon.

Please pray for it to be calmed and it won't make a landfall in our nation and especially our Region Eastern Visayas. Thank you!

Jesus be glorified in this situation. Tonight different Christian churches of different denominations are praying for the protection of our land.

Thanks a lot for your prayers.

**When we seen the news and devastation, we were a little bit disillusioned until we heard the announcer say, "The Typhoon was supposed to go inland, but for some unknown reason, it turned and went back out to sea." We knew the reason, but still upheld those in the hit area. We received a reply from Janssen today, and their church, homes and everything was destroyed, BUT PRAISE THE LORD, THIS IS A TESTIMONY OF GODS INTERVENTION FOR THEM.**

**Their faith and trust and thanksgiving Speaks more of Gods love than those that he spared from the Typhoon.**

*bro ken,*

*sori for d late message. Our city was the center of the storm. Our houses and church was destroyed. Almost 7thousand people died in our place. If not for the protection of our Lord, I don't know what would happen to us. Praise God for our barangay(county) was spared by God for the Christians united in prayer for God's protection. After the storm the people do not know what to do for there were no food. But the Lord provided because a big ship filled with thousands of sacks of rice ducked near our place for the tsunami pushed it towards our place so we were able to eat rice even until now. Another thing, a big storage of frozen products near our place was openEd so people were able to eat the food they haven't eaten before like first class hams, hotdogs, dairy*

*products,etc.*

*However there were prisoners who broke free and other rebel groups that were said to cause heinous crimes, so please do continue to pray. We believe that we will rise higher than before by God's Grace.*

*Our homes were washed out, our roofs are all gone and the foundation of our house.but neither life, death, discomfort, could ever separate us from the love of God.*

*We still got no electricity, I was able to send this through my phone, since only this time our cellphone network was restored. Please pray for us always. Thank you and May God`s peace be with us always.*
